

Yoga Room 1 Sessions	Dallas Yoga Fest 2017
7:00 AM to 8:00 AM Greet your day the right way! Enjoy an all-levels morning practice to prepare you for the day ahead. Center your body and mind with the breath, awaken your body with yoga postures to stretch, strengthen, renew, and increase energy while releasing tension and fostering peace of mind. Class ends with a gratitude meditation to welcome the gift of the day ahead.	Y1 - Morning Yoga Practice to Awaken the Body Karon Sartore-Frantz
8:15 AM to 9:00 AM Deep Stretch is just that! This class is great for beginners who are just starting out with yoga, seniors, or anyone who is looking for a gentle but thorough stretch. We will move through a series of poses that stretch every part of the body from head to toe. We will explore anatomy and body awareness as we move gently through our asana to find a deeper connection to our bodies and therefore ourselves.	Y2 - Yoga Deep Stretch Summer Smith
9:15 AM to 10:15 AM Upa Yoga is a simple yet powerful system of exercise that activates the joints, muscles, and energy system. Based on a sophisticated understanding of the body's mechanics, Upa Yoga dispels inertia in the body's energy and brings ease to the whole system. Within the human system, the energy flows along 72,000 pathways called nadis. At the joints, the nadis meet and form nodes, making the joints storehouses of energy. Upa Yoga activates this energy and also lubricates the joints, creating an instant sense of alertness and liveliness.	Y3 - Isha Upa Yoga Vignesh Saravanan
10:30 AM to 11:30 AM Raja Yoga is the ancient practices and rites of the Ancient Rishis of India. Patanjali was the first great sage who wrote about these practices and called it, Ashtanga, or the 8 Limb Path to Liberation. These 8 Limbs include the following: Yama-Dos, Niyama-Don't Do, Asana - Stillness, Pranayama- Energy Awareness, Pratyahara Energy Withdrawal, Dharana - Concentration of the Energy, Dhyana-Meditation, Samadhi-Oneness. These 8 practices should be considered as a way of life and should become second nature to ourselves. Raja Yoga is, therefore, both a Science and an Art. Everyone who practices this science seeks the goal of Moksha, Liberation, but when the fruit falls, the realization comes and we artistically can live our lives colored by the Creator of the Universe.	Y4 - Art and Science of Raja Yoga - Journey to Liberation Ram Smith
This hour seminar is about you experiencing your life as a vast tapestry, woven for a purpose and to attain Liberation thru Raja Yoga. Similarly, when the Art and Science of Raja Yoga are understood and perfected, we can artistically apply it to everything that we do in life as yagna, or holy sacrifice, casting ourselves into the flame of God's Love.	
11:45 AM to 12:30 PM This 'Energy Yoga class' will explore the essentials of a healthy Yoga practice by focusing breath and mindful vinyasa flow. It integrates overall body strength, balance & flexibility to allow your body to move to a deeper level. This energy yoga hour will torch calories and relax your mind with the complete awareness of your breath. Namaste!	Y5 - Yoga for Increased Energy Pooja Agarwal
1:00 PM to 2:15 PM Yoga for Joyful Living - Keynote address by Swami Mukundananda, a world-renowned teacher of spirituality, yoga, and meditation.	Y6 - Keynote: Yoga for Joyful Living Swami Mukundananda

2:45 PM to 3:45 PM

Y7 - Five Prana Vayus: Optimizing Your Vital Forces

Marika Torok

Take a journey one asana at a time to explore the effect of asana on prana vayus. Optimize the body-mind-soul matrix to realize your full potential. Experience the complex yet the primordial flow of life forces, prana, and grace within you. Your deepened understanding will allow you to optimize the body-mind-soul matrix and realize your full potential.

While we know the meaning of the word prana as life force, actual lack of understanding or appreciation of the role of prana leads us to unknowingly dissipate this energy, interrupt its flow or block it in areas altogether.

Imbalances in the prana vayus directly correlate with all types of ailments including problems with digestion, cold hands/feet, sleep apnea, heart ailments, constipation, poor circulation, respiratory dysfunction, anxiety, and depression. Whatever the physiological issue you are dealing with, it can be understood from prana vayus.

4:00 PM to 5:00 PM

Y8 - Yoga Tune Up(®)

Kerstin Jager

Explore your yoga practice through a different lens in this 60-minute class. Yoga Tune Up(®) provides a new perspective on familiar asanas, challenges your body awareness, and builds strength, stability, and mobility for yoga and everyday life. This unique approach to the practice is excellent for both new and seasoned yogis!

5:15 PM to 6:00 PM

Y9 - Stillness Through Sound - An Immersive Sacred Gong Meditation

Sundari Allampudi

In this session join Sundari, a certified Healing Sounds practitioner, and Gong Master, in an Immersive Sacred Gong Meditation. Resolve conflict, clear emotional blockages and create the sacred space to experience an easy shift in your awareness with a deep sense of relaxation.

As the Gong begins to sound, every so softly, frequencies, overtones, and subharmonics from the Gong travel the space to reach your vibratory field immersing you in a cascade of pure sound vibrations that recharge, rejuvenate, rebalance the physical, emotional and mental aspects.

Come prepared to be blown away in a mind-altering, dynamic experience designed to soothe, heal, inspire, and awaken your spirit.
